JLINDBERG

If you mapped out the menswear scene on a Venn diagram, J.Lindberg would occupy the center spot. Over the past few seasons, the Swedish brand has transformed itself into a melting pot of virtually everything relevant in men's fashion. For fall 2011, that means a seamless blend of Ivy League prep, outdoorsy Americana, European tailoring and minimalist streetwear. Some labels look forward, others revel in nostalgia, very few offer such a direct reflection of what you should be wearing right now.

CALVIN KLEIN

For someone less tall, Brad Pitt's well-documented preoccupation with sci-fi futurism might result in collections that alternate the audience with avant-gardism. Yet, the visionary Italian—now in his 20th season heading up Calvin Klein Collection—is always able to ground his experimental leanings in a more relatable, familiar context. That precarious balance is on full display, with otherwise classically cut outerwear elevated by an overlay of rubbery, geometric webbing.
